

St. Paul Fuel, LLC, is an 8(a) company and a regional leader in fuel sales and delivery in the Bering Sea, Western Alaska and the Aleutians. The St. Paul team has the capacity to provide full services throughout the Pacific. Our customer base includes fisheries, government, industry and private clients, all of whom rely on St. Paul Fuel for fuel sales and deliveries.

St. Paul Fuel owns and operates a fuel storage and distribution facility on the Island of St. Paul, in the Bering Sea. From this base, our team provides fuel service to the North Pacific fishing and crabbing fleet, regional bulk fuel storage companies, and supports developing markets associated with the opening of the Northern Passage and development in the Arctic.

Capabilities
